

High Bond Aerosol
Spray Adhesive

MBTAK

Aggressive High Bond Tack

Masons Plastabrick Barricade-Tak is designed to be used on a variety of building materials like building wraps, timber, water-proofing membranes, and sill sealing tapes. Barricade-Tak can also be used in assisting extra adhesion to Masons Barricade Window Tape and Building Paper.

Net WT 350g

FEATURES:

- Can be applied over concrete, wood, plywood, metal, aluminum, polyethylene, wraps, and masonry surfaces.
- Strong one-surface bonding with excellent water and temperature resistance
- For extra strong bond spray both surfaces
- Directions for use are listed on the can

PRECAUTIONS:

- When using solvents, extinguish all ignition sources
- Not to be used with Polystyrene
- If clogging of the nozzle occurs, clean tip and valve in hot water
