

# MASONS DIAMOND BLADES

## Segmented General Purpose, Brick & Block 9"

MPSBL9"

### APPLICATIONS

- Brick
- Concrete,
- Masonry
- Clay Paving
- Granite
- Tile

### FEATURES

- Dry and wet cutting
- Designed for hand held Circular saws & most angle grinders.
- Even fast & smooth cutting on different materials

	INCHES	MM	
Outer Diameter	9"	229mm	
Segment Width	0.110"	2.8mm	
Segment Height		8mm	
Segment Number			18
Arbor	7/8"		

## Segmented Hard Brick, Block 9"

MPSHB9"

- Fast cut hard brick & block, cured & reinforced hard concrete.
- Designed for soft to hard materials
- Designed for 30+ hp electric or 55 hp gas/diesel power flat saws.

### FEATURES

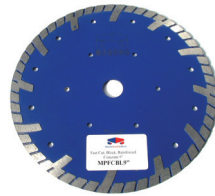

- Dry and wet cutting
- Fast and Free Cutting

	INCHES	MM	
Outer Diameter	9"	229mm	
Segment Width	0.110"	2.8mm	
Segment Height		8mm	
Segment Number			18
Arbor	7/8"		

## Fast Cut, Block, Reinforced Concrete 9"

MPFCBL9"

*The extra holes are designed to reduce the noise level.*

### APPLICATIONS

- Fast cut Block, hard brick, reinforced & hard concrete, masonry, tile
- Hard to medium natural stone materials, granite, sandstone, limestone.

### FEATURES

- Dry and wet cutting
- Turbo teeth offer fast and smooth cuttings
- Unique design of segments allows ideal debris removal, better cooling and protecting of steel core.

	INCHES	MM	
Outer Diameter	9"	229mm	
Segment Width	0.110"	2.8mm	
Segment Height		8mm	
Arbor	7/8"		

## Segmented Block Blade 9"

MPSSBL9"

*The extra holes are designed to reduce the noise level.*

### APPLICATIONS

- Reinforced concrete
- Concrete block
- Hard brick
- Masonry.

### FEATURES

- Dry & Wet Cutting blade
- Unique design of segments allows ideal debris removal, and better cooling and protecting core

	INCHES	MM	
Outer Diameter	9"	229mm	
Segment Width	0.157"	4mm	
Segment Height		13mm	
Segment Number			10
Arbor	7/8"

# MASONS DIAMOND BLADES

## NORMAL & SILENT

### Very Hard Brick 14"

MPVHB14"  
MPVHBS14" (Silent)

#### APPLICATIONS

- Very Hard Brick & Block, reinforced & hard concrete, masonry, tile.
- Hard to medium stone materials, granite, marble.

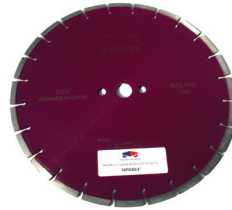

#### FEATURES

- Dry and wet cutting
- Turbo teeth offer fast and smooth cuttings

	INCHES	MM
Outer Diameter	14" / 16"	355mm / 406mm
Segment Width	0.125" / 0.140"	3.2mm / 3.6mm
Segment Height		10mm / 10mm
Segment Number	21 / 24	
Arbor	1" / 1"	

### Hard Brick, Cured & Reinforced Concrete 14"

MPHB14"  
MPHBS14" (Silent)

- Fast cut hard brick & block, cured & reinforced hard concrete.
- Designed for med to hard materials
- Designed for 30+ hp electric or 55 hp gas/diesel power flat saws.

#### FEATURES

- Dry and wet cutting
- Fast and Free Cutting

	INCHES	MM
Outer Diameter	14" / 16"	355mm / 406mm
Segment Width	0.125" / 0.140"	3.2mm / 3.6mm
Segment Height		10mm / 10mm
Segment Number	24 / 28	
Arbor	1" / 1"	

### General Purpose 14"

MPGP 14"  
MPGPS 14" (Silent)

#### APPLICATIONS

- Brick & concrete block, Cured & reinforced concrete and green concrete.

#### FEATURES

- Dry and wet cutting
- High speed, long lifespan and safe cutting.

	INCHES	MM
Outer Diameter	14" / 16"	355mm / 406mm
Segment Width	0.125" / 0.140"	3.2mm / 3.6mm
Segment Height		10mm / 10mm
Segment Number	21 / 24	
Arbor	1" / 1"	

**Use the Silent model to greatly reduce the noise level when cutting brick, block or concrete**
