

Masons Drywall Sander

MPPDWS

Unique Function

CAN BE FOLDED

Folds for convenient storage and transportation in its own carry case.

EASY FOLD

The wire does not need disconnecting when folding.

SHORT VERSION

Length of 123cm for working in awkward areas.

EXTENDED VERSION

Length of 165cm for working with high walls.

LONGEST VERSION

Length of 220cm with extended handle for sanding ceilings easily.

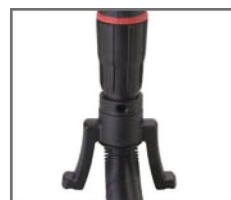

The brush segment can be detached easily to sand along adjacent edges and awkward places.

Front mounted motor to ensure longer life time.

Internal extraction and external extraction for dust particles. The 8 hole internal extraction system collects fine dust particles, enabling adherence to wall.

Support to protect extraction hose from deforming when the machine is stood on the floor. Adjust the extraction power by turning to the left or right, balancing extraction power of different vacuum cleaners resulting in perfect sanding work.

Variable speed maintains a stable speed control system. The dust-protected on/off switch ensures reliable functionality during heavy-duty applications.

Sturdy case comes complete with accessories

	R7231A
Power	600W
Voltage	230V/50Hz- 120V/60Hz
No Load Speed	0-1000 rpm
Sanding Motion	Rotation
Sanding Pads (dia.)	215mm
Sanding Paper(dia.)	225mm
Dust Extraction Hose(dia.)	38mm
