Splash & Dash -Concentrate-

MASONS Splash and Dash is a specially formulated product containing biodegradable surfactants, for removing mosses, grime and mould from any surface without involving hard scrubbing, the weather does the work in conjunction with the product.

RESULTS:

The results will vary depending on the degree of contamination, weather conditions and the amount applied. However, an improvement should be obvious within a 3 month period. In severe cases, a second treatment may be required and up to 12 months before the area is free of contaminants.

COVERAGE:

The coverage is dependent on a number of factors including how porous the surface being treated is, the strength of the product and the person applying the product. However, the product can cover up to 300 square metres in optimum conditions.

APPLICATION:

MASONS Splash and Dash may be diluted with 5 parts water to 1 part product. When the contamination is heavy a stronger mix is advisable.

To obtain the best results ensure that it will not rain for 4 – 6 hours after MASONS Splash and Dash has been applied. The ultimate conditions are dry overcast weather or alternatively towards the end of the day to avoid excess evaporation of the product by sunlight. No further action is required.

Important: If you are on tank water and you wish to treat the roof from which water is collected, disconnect the water supply that goes into the tank until a minimum of 6mm of rain has fallen, which could take up to one month. It is essential to thoroughly saturate the area with MASONS Splash and Dash to achieve the best results.

Note: It is normal for concrete surfaces to change colour to an orangy brown. This will disappear within weeks of the application.

BRUSH OR BROOM

SPRAY UNIT

CAUTION:

This product is very safe to use provided normal commonsense prevails. Keep it away from animals and restrict their access to the surfaces being treated until they are dry. Should they be exposed to the product wash it off. Avoid directly spraying the product over plants. In the event this occurs, wash off with fresh water.
